DISMICHEL®

CREAM

50 ml

CLASS II MD CE 1370

INDICATIONS

Intensive local treatment formulated to relieve and prevent hemosiderinic dyschromia and melanin hyperpigmentations.

BASED ON

a.RBS[4] Complex®: liposomal Apo-Lactoferrin, Arbutin, Dissolvine®, Kojic acid

USE

Adults: apply locally several times a day.

PROPERTIES

- It contains **a.RBS[4] Complex®**, which combines chelating action of liposomal Apo-Lactoferrin and Dissolvine® with depigmenting action of Arbutin and Kojic Acid.
- It contains **liposomal Apo-Lactoferrin:** Lactoferrin is included inside a liposome to ensure its trans-dermal absorption and to protect the active ingredient from oxidative degradation.
- It contains **Dissolvine®**: a glutamic acid derivative with chelating properties. It acts in synergy with liposomal Apo-Lactoferrin, amplifying its sequestering effect on iron.
- Rapid absorption. Not greasy.
- **Formulated without:** allergen, colorant, paraben, petrolatum, fragrance and silicon.
- Nickel tested.
- **Clinically tested**: clinical observational study *(Hyperpigmentation treatment: comparison between laser therapy and a topical product)* presented at the **24th Dermatology World Congress** (Milan, 2019).

THERAPEUTIC AREAS: DERMATOLOGY • ESTHETIC MEDICINE AND SURGERY • VASCULAR MEDICINE VASCULAR SURGERY • PHLEBOLOGY • ANGIOLOGY • GENERAL SURGERY

>> NEW

GINFAST® IR

30 SACHETS

3.05 g

Ministry of Health code no. 178122

INDICATIONS

Supports ovulation restoration, improves oocyte quality, and sustains metabolism in adolescents and women with Polycystic Ovary Syndrome (PCOS), often associated with insulin resistance and hyperandrogenism symptoms such as hirsutism and acne. Helps regulate insulin levels and counteract metabolic imbalances, contributing to improved fertility in women trying to conceive. Also recommended during menopause and post-menopause to support weight management, improve metabolic balance, and promote hormonal well-being.

BASED ON

Folate from Quatrefolic® [(6S)-5-Methyltetrahydrofolic acid, glucosamine salt], Reducose® (White mulberry), Myo-inositol

USE

Adolescents and adults: 1 sachet during main meals, 2 times a day. Pour the content of the sachet in a glass of water (150 ml), stir well and take with the meal. It is important that the solution reaches the gut along with the food.

PROPERTIES

- **Myo-inositol** acts as a second messenger for FSH, insulin, and TSH. It supports menstrual cycle regulation and oocyte quality, aiding in the management of PCOS. It improves tissue sensitivity to insulin and helps regulate metabolism. It also promotes cardiovascular and emotional well-being in menopausal and post-menopausal women.
- **Reducose®**, an aqueous extract of **white mulberry** thanks to the presence of 1-deoxynojirimycin (DNJ), rich in 1-deoxynojirimycin (DNJ), reduces carbohydrate absorption, lowering postprandial glycemic and insulin peaks, and improving glucose metabolism. It stimulates late GLP-1 release, reducing appetite, promoting satiety, and supporting weight loss. By lowering intestinal glucose levels, it also enhances myo-inositol absorption.
- **Folate** helps regulate the menstrual cycle, supports ovulation, and controls homocysteine levels, which are linked to insulin resistance. During menopause, it supports metabolic function and contributes to bone health. Quatrefolic® folate is the biologically active form of folic acid (5-MTHF), requiring no further metabolic activation. It does not mask vitamin B12 deficiency and is completely water-soluble.
- Excellent palatability: peach tea flavour.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: GYNECOLOGY • DIABETOLOGY • ENDOCRINOLOGY • DERMATOLOGY • DIETOLOGY • CARDIOLOGY • PEDIATRICS

GINFAST® PLUS

20 SACHETS

4.7 g

Ministry of Health code no. 84191

INDICATIONS

Recommended for the management of Polycystic Ovary Syndrome (PCOS) in lean or normal-weight women (lean PCOS), to regulate the menstrual cycle, improve oocyte quality, and support hormonal balance. Useful as fertility support and during pregnancy to reduce the risks associated with conditions such as gestational diabetes and preeclampsia, and to promote healthy fetal development.

BASED ON

Folate from Quatrefolic® [(6S)-5-methyltetrahydrofolic acid, glucosamine salt], Melatonin, Myo-inositol

USE

Adults: 1 sachet a day, dissolved in a glass of water (150 ml), preferably in the evening before bedtime.

PROPERTIES

- **Myo-inositol (4 g/sachet)** enhances tissue sensitivity to insulin, supports menstrual cycle regulation, ovulation, and oocyte quality. It contributes to metabolic balance in women with PCOS, including during pregnancy, and reduces the risk of ovarian hyperstimulation in assisted reproduction procedures (ART).
- **Melatonin** protects oocytes, mother, and fetus from oxidative stress, promoting follicular quality and improving placental development. It helps reduce the risks of gestational diabetes and preeclampsia, supporting overall pregnancy well-being.
- **Folate**, in its biologically active form, promotes oocyte maturation and contributes to lowering homocysteine levels. It improves insulin sensitivity, reduces cardiovascular risk, and supports neural tube development, helping prevent birth defects.
- Excellent palatability: lemon flavour.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: GYNECOLOGY • ENDOCRINOLOGY • DERMATOLOGY

GINFAST® PRL

30 CHEWABLE TABLETS

Ministry of Health code no.111604

INDICATIONS

Recommended for the treatment of symptoms associated with hyperprolactinemia, such as menstrual irregularities, mastalgia, migraine, and mood swings. Useful in relieving premenstrual syndrome (PMS) symptoms and supporting fertility in cases of hyperprolactinemia.

BASED ON

Chaste tree d.e.

USE

Adults: 1 tablet a day. The tablet can be chewed or swallowed with a little water, preferably in the evening before bedtime.

PROPERTIES

- Each tablet contains **20 mg of dry extract of Chaste tree** (equivalent to 200 mg of plant, 10:1 ratio), the only dosage supported by numerous clinical trials for efficacy in the listed indications.
- The **diterpene component** of Chaste tree acts as a **partial agonist on D2 dopaminergic receptors**, helping regulate prolactin levels.
- It **improves neuroendocrine balance** by also **acting on μ and δ opioid receptors**, contributing to the relief of premenstrual syndrome symptoms.
- **Formulated as chewable tablets:** ensures rapid release of active ingredients for convenient and effective intake, ideal for those with swallowing difficulties.
- Excellent palatability: orange flavour.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: ENDOCRINOLOGY • GYNECOLOGY • PSYCHIATRY

LOGUSFER®

20 CAPSULES

Ministry of Health code no. 63892

INDICATIONS

Recommended for all sideropenic conditions.

BASED ON

SunActive® Fe – Microencapsulated ferric pyrophosphate, Lactoferrin, Folate as Quatrefolic® [(6S)-5 Methyltetrahydrofolic acid, glucosamine salt]

USE

Adults: 1 capsule a day, at any time of the day.

PROPERTIES

- Ideal formulation to counteract iron deficiencies, even chronic ones.
- It contains **SunActive®Iron**, Microencapsulated ferric pyrophosphate, highly bioavailable and digestible: it does not cause irritation, sense of heaviness and leaves no unpleasant aftertaste. Clinical studies supporting high bioavailability and efficacy. *TAIYO GmbH* internal data.
- The co-administration of **SunActive® Iron** and **Lactoferrin** ensures a significant increase and normalization of blood parameters related to the condition of sideropenic anemia.
- It contains **Folate from Quatrefolic®**: a biologically active form of Folic acid (5-MTHF) that does not need to be metabolized to perform its action, does not mask Vitamin B12 deficiency and is completely soluble in water.
- High patient compliance.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: GASTRO-ENTEROLOGY • GERIATRICS • GYNECOLOGY • ONCOLOGY • CARDIOLOGY • NEPHROLOGY • GENERAL SURGERY • DIETOLOGY

LOGUSGYN®

INTIMATE CLEANSER

250 ml

INDICATIONS

Intimate cleanser specific for the genital mucous membranes that soothes and maintains the pH slightly acidic, protecting intimate well-being, even during the menstrual cycle.

BASED ON

Aloe vera, Lactic acid

USE

Adults: make daily washes with 1 dose diluted with water directly on the palm of the hand. Rinse thoroughly.

PROPERTIES

- 250 ml size.
- Daily use.
- Easy to rinse.
- It contains menthol and eucalyptus, which give an immediate sensation of freshness.
- **Formulated without:** parabens, petrolatum, silicones, colorants, SLS, PEG, copolymers, thiazolinones, EDTA and SLES.
- Allergen free fragrance.
- Nickel tested.
- pH of the solution: 4.
- Dermatologically tested.

THERAPEUTIC AREAS: GYNECOLOGY

LOGUSGYN® IMMUNO

10 SACHETS

3 g

INDICATIONS

Indicated for the prevention and treatment of symptoms associated with urogenital inflammation/infections and in all those conditions that cause an imbalance in vaginal eubiosis, such as Genitourinary Syndrome of Menopause (GSM), endometriosis, adenomyosis.

BASED ON

- **Beta-glucan**
- **Probiotics:** IMMUNOBLEND active® (*Lactobacillus acidophilus* La-14, *Lactobacillus casei* Lc-11, *Lactobacillus plantarum* Lp-115, *Streptococcus termophilus* St-21)

USE

- **UROGENITAL INFECTIONS/INFLAMMATIONS (EVEN IN THE PRESENCE OF HPV):**
  - **Prevention:** 1 sachet a day, dissolved in a glass of water (150 ml), for 10 days, starting 10 days before the expected date of the beginning of the menstrual cycle.
  - **Treatment:** 1 sachet a day, dissolved in a glass of water (150 ml), for 30 days.
- **FOR THE MAINTENANCE OF VAGINAL EUBIOSIS IN OTHER GYNECOLOGICAL CONDITIONS:**
  - **Prevention:** 1 sachet a day, dissolved in a glass of water (150 ml), for at least 10 days a month.

PROPERTIES

- Based on **IMMUNOBLEND active®**, a patented blend of multistrains and multispecies probiotics (**12 billion CFUs/sachet**), and **Beta-glucan**, an anti-inflammatory and immunomodulating prebiotic.
- Contributes to maintaining and restoring intestinal and vaginal eubiosis, improves the integrity of the vaginal epithelial barrier, modulates the immune response and reduces inflammation.
- Packaging designed to ensure the vitality of probiotics.
- It does not need to be stored at low temperatures.
- Excellent palatability: peach flavour.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: **GYNECOLOGY**

LOGUSGYN®

VAGINAL DOUCHE
5 SINGLE-USE BOTTLES

140 ml

CLASS II MD CE 1370

INDICATIONS

Indicated for the prevention and treatment of symptoms associated with vulvovaginitis of any origin, even in the presence of HPV.

BASED ON

IMMUNOBLEND - mixture of tyndallized milk ferments (*Lactobacillus acidophilus* HA–122, *Lactobacillus casei* HA–108, *Lactobacillus plantarum* HA–119, *Streptococcus termophilus* HA-110), Lactic acid

USE

UROGENITAL INFECTIONS/INFLAMMATIONS (EVEN IN THE PRESENCE OF HPV):

- **Prevention:** 1 vaginal douche a day, preferably in the evening before bedtime, for 10 days, starting 10 days before the expected date of the beginning of the menstrual cycle.
- **Treatment:** 1 vaginal douche a day, preferably in the evening before bedtime, for 10 days.

PROPERTIES

- Based on **tyndallized milk ferments**, prebiotics selected for their ability to influence the vaginal ecosystem and strengthen the immune system and **other functional ingredients** with soothing and antioxidant action.
- Single-use non-sterile solution for intimate hygiene.
- In convenient single-use bottles with a practical, removable, rotating and tilting cannula, which avoids accidental trauma and dispenses the gynecological solution uniformly.
- **Formulated with:** chlorhexidine 0.2%.
- **It does not contain** parabens and allergens.
- pH of the solution: 4.3.
- **Clinically tested:**
  Forleo, F., Pelosi, F. M., Bianco, L., & Petrella, V. (2024). *Efficacy and safety of vaginal formulations with tyndallized ferments in subjects with nonspecific vulvovaginitis: A randomized study in Italy. Journal of Obstetrics and Gynaecology Research.*
- Excellent compliance for the patient.

THERAPEUTIC AREAS: **GYNECOLOGY**

LOGUSGYN®

10 VAGINAL SUPPOSITORIES

2 g

CLASS II MD CE 1370

INDICATIONS

Indicated for the prevention and treatment of symptoms associated with vulvovaginitis of any origin, even in the presence of HPV.

BASED ON

IMMUNOBLEND - mixture of tyndallized milk ferments (*Lactobacillus acidophilus* HA–122, *Lactobacillus casei* HA–108, *Lactobacillus plantarum* HA–119, *Streptococcus termophilus* HA-110), Lactic acid, Guar gum, Pot marigold

USE

- **UROGENITAL INFECTIONS/INFLAMMATIONS**
  - **Prevention**: 1 vaginal suppository a day, preferably in the evening before bedtime, for 10 days, starting 10 days before the expected date of the beginning of the menstrual cycle.
  - **Treatment**: 1 vaginal suppository a day, preferably in the evening before bedtime, for 10 days.

- **UROGENITAL INFECTIONS/INFLAMMATIONS (EVEN IN THE PRESENCE OF HPV):**
  - **Prevention**: 1 vaginal suppository a day, preferably in the evening before bedtime, for 10 days, from 10 days before the expected date of the beginning of the menstrual cycle.
  - **Treatment**: 1 vaginal suppository a day, preferably in the evening before bedtime, for 30 days.

- **FOR THE MAINTENANCE OF VAGINAL EUBIOSIS IN OTHER GYNECOLOGICAL CONDITIONS:**
  - **Prevention**: 1 vaginal suppository a day, preferably in the evening before bedtime, for at least 10 days a month.

PROPERTIES

- Based on **tyndallized milk ferments**, prebiotics selected for their ability to influence the vaginal ecosystem and strengthen the immune system, and **other functional ingredients** with soothing and antioxidant action.
- **Formulated with**: Vitamins A and E.
- **Formulated without**: parabens and allergens.
- **Clinically tested:**
  Forleo, F., Pelosi, F. M., Bianco, L., & Petrella, V. (2024). *Efficacy and safety of vaginal formulations with tyndallized ferments in subjects with nonspecific vulvovaginitis: A randomized study in Italy. Journal of Obstetrics and Gynaecology Research.*
- **Excellent compliance for the patient.**

THERAPEUTIC AREAS: GYNECOLOGY

LOGUSMAG®

30 STICKS

1.8 g

Ministry of Health code no. 89202

INDICATIONS

Recommended to support the main gynecological disorders associated to the menstrual cycle, pregnancy and lactation, menopause and other conditions resulting from hypomagnesia, such as fibromyalgia and use of proton pump inhibitors (PPIs).

BASED ON

Inulin, Magnesium: citrate, marine (carbonate, chloride, hydroxide, oxide, sulfate), pidolate

USE

Adults: 1-2 sticks a day, dissolved directly in the mouth or in a glass of water (150 ml).

PROPERTIES

- Balanced mix of organic and inorganic **magnesium** salts.
- **Inulin**, besides performing a prebiotic action, improves the intestinal absorption and bioavailability of magnesium.
- Practical fast absorption sticks.
- It offers an ideal integration in the gynecological field that supports women in case of: menstrual cycle disorders such as PMS, oligomenorrhea and dysmenorrhea, catamenial migraine, pregnancy, gestational diabetes, preeclampsia, breastfeeding; menopause, metabolic syndrome, osteoporosis; and in conditions of hypomagnesia, such as fibromyalgia and prazole (PPIs) use.
- Excellent palatability: lemon flavour.
- Allergen and preservative free.

THERAPEUTIC AREAS: GYNECOLOGY • SPORTS MEDICINE • CARDIOLOGY • CARDIO-VASCULAR REHABILITATION MEDICINE • DIABETOLOGY • ENDOCRINOLOGY • GERIATRICS • NEUROLOGY • PSYCHIATRY • ORTHOPEDICS • GASTRO-ENTEROLOGY

NETTARDEP®

20 SINGLE-DOSE BOTTLES

10 ml

Ministry of Health code no. 41918

INDICATIONS

Recommended for the most common cases of physical and mental tiredness and weakness, such as those associated with periods of intense work or study, seasonal-change stress, and post-influenza recovery.

BASED ON

Acacia honey, Rose root fluid e., Bilberry fruit juice concentrate, Schisandra d.e. 1% Schisandrin, Siberian ginseng d.e. titir. 10% saponosides and 0.8% eleutherosides, Acetyl-L-Carnitine, Royal Jelly, Pomegranate fruit juice concentrate, Vitamin C, Phosphatidylserine, L-Theanine, Vitamin B6, Folic acid, Vitamin B12

USE

Adolescents and adults:1 single-dose bottle a day, preferably in the morning.

PROPERTIES

- Triple action: tonic, restorative and immunostimulant, it provides a fast release physical and mental energy.
- Adaptogens and antioxidants enriched formula.
- It contains Acacia honey of EU origin.
- Practical **single-dose bottles** that ensure quality and stability.
- Excellent palatability: cola flavour.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: GENERAL SURGERY • GERIATRICS • NEUROLOGY • PSYCHIATRY • SPORTS MEDICINE

NIKEDEP® PLUS

20 SACHETS

10.78 g

Ministry of Health code no. 36769

INDICATIONS

Recommended to support athletic performance by promoting energy and endurance during physical activity, while also contributing to optimal recovery at both physical and mental levels.

BASED ON

Creatine, L-Arginine, Carnitine, Beta-Alanine, Taurine, Guarana d.e. 8% Caffeine, Coenzyme Q10, Vitamin C, Pido-Zinc® Zinc pidolate, Selenium L-Methionine

USE

Adults: 1 sachet a day, dissolved in a glass of water (200 ml), to be taken 30–60 minutes before physical activity.

PROPERTIES

- Pro-energetic and ergogenic formulation based on phytoextracts, amino acids, vitamins and minerals.
- Provides rapid-release energy, supports improved physical and mental performance, and offers antioxidant protection.
- Contains a high dose of **Creatine (3 g/sachet)** and **Arginine (2 g/sachet)**.
- **Carnitine**, in synergy with Creatine and L-Arginine, helps enhance sports performance by promoting high energy production from fatty acids.
- It contains **Pido-Zinc®**, a highly bioavailable Zinc pidolate.
- Excellent palatability: lemon flavour.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: SPORTS MEDICINE

PAUDEP® TOTAL

30 CAPSULES

Ministry of Health code no. 105644

INDICATIONS

Recommended for the treatment of menopausal symptoms.

BASED ON

Griffonia d.e. 20% 5-HTP, Hawthorn d.e. 3% total Flavonoids as Vitexin, *Bifidobacterium lactis* 420, Bugbane d.e. 2.5% triterpeneglycosides, Vitamin K2, Vitamin D3, Melatonin

USE

Adults: 1 capsule a day, on a full stomach, preferably in the evening before bedtime.

PROPERTIES

- It is a complete product: it acts on all the typical symptoms of menopause (neurovegetative, psychological, metabolic ones).
- It contains **Vitamin K2** in association with **Vitamin D3**, for the prevention of osteoporosis and atherosclerotic processes.
- It reduces visceral fat accumulation: a clinical trial on body weight control by ***Bifidobacterium lactis* 420 (10 billion CFUs/ capsule)** was conducted.
- Ideal amount of **Bugbane** extract.
- It is safe, effective, tolerable: it does not alter the plasma hormone profile and the endometrial thickness, it does not increase the risk of venous thrombo-embolism and does not exert estrogenic effects on the mammary gland and uterus.
- Single administration.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: GYNECOLOGY • ORTHOPEDICS (OSTEOPOROSIS PRAXIS)

PELVIPEA®

40 CAPSULES

Ministry of Health code no. 156676

INDICATIONS

Recommended for multimodal treatment against inflammatory and dysfunctional pelvic pain. Patented formulation.

BASED ON

Pelvipea® - Micronized Palmitoylethanolamide (PEA), Hempseed oil* (*Cannabis sativa* L.), Pycnogenol® (Maritime pine bark dry extract). **Patented formula**, is a trademark of Erbozeta Group

USE

Adults:

- **Attack therapy:** up to 3 capsules a day, on a full stomach.
- **Maintenance therapy:** 1 capsule a day, on a full stomach.

** The hempseed oil contained in Pelvipea® is safe and certified. The Decree of the Ministry of Health of 4 November 2019 establishes that food supplements containing derivatives of Cannabis sativa L. (seeds, flour obtained from seeds, oil obtained from seeds) must fall within the content limit of 2 mg/kg of THC (as concentration resulting from the sum of the concentrations of the substance "Δ9-THC" and its inactive acid precursor "Δ9-THCA-A").*

PROPERTIES

- **Patented formulation.**
- It enhances the physiological mechanisms of pain control through four main modalities: it blocks the action of proinflammatory and pro-nociceptive agents at the level of the peripheral nervous system; it blocks the propagation of the action potential; it inhibits nociceptive signaling towards the brain and perception of pain in the central nervous system.
- Synergistic efficacy demonstrated in vitro on a cellular model of inflammation: it acts on both **nociceptive pain** (synergistic anti-inflammatory effect of the three ingredients demonstrated on a cellular model THP-1 + T24 urothelial cells) and **neuropathic pain**.
- **Evidence based**: Tafuri, A., Panunzio, A., De Mitri, R., Benetti, F., Gaio, E., & Pagliarulo, V. (2023). *Micronized Palmitoylethanolamide, Hempseed Oil, and Maritime Pine Bark Dry Extract (Pelvipea®) for Pelvic Pain: An In Vitro Study for Urothelial Inflammation Treatment. Cells, 12(4), 616.*
- It does not interfere but synergizes with other analgesic therapies.
- It is not habit-forming and does not cause psychotropic effects (THC free).
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: URO-GINECOLOGY • URO-ANDROLOGY

PREDOLGYN®

20 TABLETS

Ministry of Health code no. 63911

INDICATIONS

Recommended for the treatment of hypermenorrhea and dysmenorrhea.

BASED ON

Meriva® (Turmeric phospholipid) d.e. 18-22% Curcuminoids, Magnesium, Maritime pine d.e. 95% Proanthocyanidins, Shepherd's purse d.e.

USE

Adults:

- **Hypermenorrhea:** 2 tablets a day, in a single administration, only during the days of menstrual flow.
- **Dysmenorrhea:** 1 tablet a day. Increase to 2 tablets a day, in a single administration, at the onset of symptoms.

Do not take this product if you are trying to get pregnant.

PROPERTIES

- Antihemorrhagic, anti-inflammatory and pain reliever.
- **Shepherd's purse** has a vasoconstrictive and haemostatic action: particularly effective to fight and treat menometrorrhagia and metrorrhagia phenomena.
- The **synergy between Turmeric and Maritime pine** promotes an anti-inflammatory action.
- It contains a high-dosage of **Meriva® Turmeric phospholipid** that offers a bioavailability of about 29 times higher than non-complexed turmeric dry extract. The **Phytosome®** technology is a patented delivery system that increases the bioavailability of the active ingredient, improving its effectiveness and duration of action. **More than 25 clinical studies** (*peer-reviewed* and Pubmed indexed) were performed with Meriva® in different inflammatory pathological conditions.
- **Magnesium** leads to a reduction in emotional instability and muscular tension, promotes an increase in the tolerance for pain and regulates mood.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: GYNECOLOGY

RESPIDEP®

ORAL SOLUTION

150 ml

INDICATIONS

Indicated for dry, productive coughs, irritation of the oropharyngeal mucosa, and respiratory tract discomfort.

BASED ON

Eucalyptus Honey, Manuka Honey, Echinacea, Chamomile, Ginger, Zinc

USE

Adults: 10 ml, 2 times a day.

PROPERTIES

- **Dual soothing and protective action:** it forms an emollient film on the oropharyngeal mucosa, protecting it from irritating stimuli and helping reduce local discomfort and coughing.
- **Eucalyptus honey** acts locally on the oropharyngeal mucosa; clinical evidence supports its use in **acute coughs**, with documented benefits also for nighttime coughs and the quality of sleep.
- **Manuka honey**, naturally rich in **methylglyoxal**, is characterized by **antibacterial and antiviral properties**, helping to combat microbial proliferation and complement the protective action of the formulation.
- **Chamomile and Ginger help modulate inflammatory processes** and complement the soothing action, promoting the comfort and well-being of the respiratory tract.
- **Echinacea and Zinc** support the body's natural defenses and **support the immune response**; Zinc also contributes to maintaining the integrity of mucosal barriers.
- **Also suitable for use during pregnancy.**
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: GERIATRICS • GYNECOLOGY • OTORHINO-LARYNGOLOGY • PNEUMOLOGY

SALIVIT®

20 SACHETS

4.16 g
Ministry of Health code no. 139045

INDICATIONS

Recommended in case of tiredness and exhaustion, excessive sweating, prolonged efforts, sports activities, stress and dietary imbalances. Also ideal for restoring cellular homeostasis in post-infectious states.

BASED ON

Magnesium citrate, Potassium citrate, Ribocare® (nucleotides), SuperOx-D (superoxide dismutase)

USE

Children from 11Y and adults: 1 sachet a day, dissolved in a glass of water (150 ml).

PROPERTIES

- It is an antioxidant and multimineral supplement that helps preserve cellular integrity and functionality.
- It contains highly bioavailable organic salts of **Magnesium** and **Potassium**.
- It contains **SuperOx-D**, 100% natural superoxide dismutase with high enzymatic activity, useful to counteract oxidative stress.
- It contains **Ribocare®**, a nucleotide blend (AMP, CMP, GMP, IMP, UMP), useful for cellular health and to improve immune response. Ribocare® speeds up the body's recovery time from physical exertion and preserves the intestinal morphology and function.
- Excellent palatability: lime flavour.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: CARDIOLOGY • CARDIO-VASCULAR REHABILITATION MEDICINE • DIETOLOGY • GERIATRICS • SPORTS MEDICINE

SALIVIT® 9MESI

30 TABLETS + 30 SOFTGELS

+
Ministry of Health code no. 114447

INDICATIONS

Recommended to ensure a correct intake of micronutrients to mum and baby before and during pregnancy, until the end of breastfeeding.

BASED ON

- **Softgel**: DHA from Goldenomega® fish oil
- **Tablet**: SunActive® Fe - micronized and microencapsulated iron pyrophosphate, Vitamin C, Pido-Zinc® Zinc pidolate, Vitamin E, Manganese, Vitamin B3, Copper, Vitamin B5, Vitamin D3, Vitamin B6, Vitamin B2, Vitamin B1, Folate from Quatrefolic® [(6S)-5-Methyltetrahydrofolic acid, glucosamine salt], Potassium, Biotin, Vitamin B12

USE

Adults: 1 tablet and 1 softgel a day. Take the tablet on a full stomach, after breakfast. Take the softgel together with the tablet or at a different time of the day.

PROPERTIES

- It is a complete and skillfully dosed formula.
- It is packaged in a practical double blister: 2 products in 1.
- It contains **Quatrefolic®**: biologically active form of Folic acid (5-MTHF), 3 times more bioavailable than it. Unlike Folic acid, it is equally effective in the entire population and does not cause hyperhomocysteinemia.
- It contains **SunActive® Fe**, micronized and microencapsulated iron pyrophosphate, highly bioavailable and digestible: it does not cause irritation, sense of heaviness and leaves no unpleasant aftertaste. Clinical studies in pregnant women supporting the high efficacy and safety of action. *TAIYO GmbH* internal data.
- It contains **Pido-Zinc®**, a highly bioavailable Zinc pidolate.
- It contains **Goldenomega®** fish oil that is rich in **DHA** and extracted from wild fishes and anchovies from the Pacific Ocean. The oil is subjected to a patented purification process which ensures the elimination of heavy metals, PCBs and others environmental pollutants. It is certified by FOS (Friends of the Sea) and IFFO (International Fishmeal and Fish Oil Organization) for responsible fishing.
- Excellent palatability: **no metallic and fish aftertaste**, excellent compliance for the patient.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: GYNECOLOGY • NEONATOLOGY • PEDIATRICS

SALIVIT® IMMUNO

30 CAPSULES

Ministry of Health code no. 100790

INDICATIONS

Recommended to strengthen the immune system against viral, bacterial and fungal infections. It supports the function of the immune system even during pregnancy and breastfeeding.

BASED ON

Bega Bionutrients™ - Lactoferrin, Vitamin C, Vitamin D3, Zinc

USE

Children from 8Y and adults: 1 capsule a day, on a full stomach.
In case of recurrent susceptibility to infections, it is recommended to take the product in repeated cycles. Therapy cycles of at least 3 months, to repeat throughout the year, are suggested.

PROPERTIES

- It offers a broad-spectrum immunity protection.
- It contains **Bega Bionutrients™ Lactoferrin with an excellent bioactivity and high purity (95%)**, Halal, Kosher, Non-GMO and EFSA novel food approved.
- **Lactoferrin** supports the immune system, has an anti-bacterial and anti-viral action and regulates the absorption and metabolism of iron by removing it from the bacteria that use it as a growth medium.
- **Vitamin C, Vitamin D3** and **Zinc** are physiological modulators of the immune system: they coordinate its correct functioning by supporting different aspects of both innate and adaptive immunity.
- Gluten free. Naturally lactose free.
- It contains lactoferrin, a milk derivative.

THERAPEUTIC AREAS: **GYNECOLOGY**

SALIVIT® MG

30 STICKS

1.8 g
Ministry of Health code no. 139046

INDICATIONS

It is recommended in the prevention and treatment of magnesium deficiency symptoms, especially in case of predisposing factors or high risk medications, unbalanced diet, physical and mental stress.

BASED ON

Inulin, Magnesium: citrate, marine (carbonate, chloride, hydroxide, oxide, sulfate), pidolate

USE

Adults: 1-2 sticks a day, dissolved directly in the mouth or in a glass of water (150 ml).

PROPERTIES

- Effective Magnesium supplementation at both **plasma** and **intracellular** levels.
- **Best absorbed Magnesium** thanks to inulin which increases intestinal transit.
- **More circulating and assimilated Magnesium** thanks to the combination of organic and inorganic salts.
- Handy orosoluble sticks.
- Excellent palatability: citrus flavour.
- Allergen and preservative free.

THERAPEUTIC AREAS: **GYNECOLOGY • SPORTS MEDICINE • CARDIOLOGY • ENDOCRINOLOGY • GERIATRICS • GASTRO-ENTEROLOGY • ORTOPEDICS**

SALIVIT® PERLATTE

30 TABLETS

Ministry of Health code no. 108738

INDICATIONS

Recommended to promote breastfeeding and improve the nutritional and organoleptic characteristics of breast milk. Particularly suitable for mothers of premature babies.

BASED ON

Calcium, Fennel d.e. 1% Essential oil, Goat's rue d.e., African marigold d.e. 20% Lutein, Vitamin D3

USE

Adults: 2 tablets a day, in a single administration, on a full stomach. The product can be taken after childbirth, for the entire duration of breastfeeding.

PROPERTIES

- It contains both galactogogues and micronutrients.
- It contains a high concentration of **Goat's rue**.
- It contains **Fennel** as an additional galactogogue, also useful to counteract the appearance of gaseous colics in the infant and to improve the organoleptic characteristics of breast milk.
- The presence of **Vitamin D** counteracts its natural depletion from breast milk, which already occurs 8 weeks after the delivery. The therapeutic dosage ensures a correct concentration of Vitamin D, preventing possible complications for mother and baby.
- The implementation of **Calcium** limits the bone demineralisation obtained by the physiological mechanism of mobilisation of the bone mineral to the mother's milk.
- **Lutein**, from African marigold, is fundamental for a correct neurodevelopment of the child and is particularly useful for preterm babies.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: GYNECOLOGY • NEONATOLOGY • PEDIATRICS

VENDEP®

30 CAPSULES

Ministry of Health code no. 311

INDICATIONS

Recommended in case of venous insufficiency, varicose veins, edemas, heaviness in the lower limbs, itching and swelling. It is also useful in the management of hemorrhoidal pathology.

BASED ON

Triosmetina® (Diosmin, Diosmetin and Escin), Sweet clover d.e. 20% Coumarin, Bromelain 2500 GDU/g, Vitamin C, Ginkgo d.e. 24% Ginkgoflavonoids and 5% Terpene lactones, Gotu kola d.e. 20% Triterpenes, Vitamin E

USE

Adults: 1-2 capsules a day.

PROPERTIES

- The mix of ingredients counteracts the formation of edema, capillary filtration, has an anti-inflammatory action and modulates the synthesis of collagen with a consequent vasotonic effect.
- It contains **Triosmetina®**, an exclusive combination of Diosmin, Diosmetin, and Escin, which supports venous tone, enhances lymphatic drainage, and increases capillary resistance, reducing permeability and protecting the microcirculation from damage.
- **Fast/Retard effect**: free Diosmetin is rapidly absorbed for an immediate effect, while Diosmin undergoes its natural metabolism, progressively releasing Diosmetin for a prolonged action.
- Fast absorption.
- Double action: shock and maintenance.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: VASCULAR MEDICINE • VASCULAR SURGERY• PHLEBOLOGY • ANGIOLOGY • CARDIOLOGY • DERMATOLOGY • ESTHETIC MEDICINE AND SURGERY

VENDEP®

EMULGEL

100 ml

INDICATIONS

Topical gel with soothing , refreshing and microcirculation-stimulating action. Useful in case of water retention, heaviness and swelling in the lower limbs, capillary fragility and varicose veins.

BASED ON

Menthol, Escin, Cypress and Lemon Essential oils, Gotu kola, Horse chestnut, Ginkgo, Ivy, Bromelain

USE

Adults: apply locally several times a day. Spread on the affected areas and allow to absorb with a light massage.

PROPERTIES

- Selected ingredients to provide legs relief and lightness, reducing water retention and lymphatic stasis.
- It guarantees a rapid absorption, does not grease and leaves no residue.
- **Dermatologically tested.**
- **Formulated without:** colorants, parabens, petrolatums, silicones and fragrances.

THERAPEUTIC AREAS: VASCULAR MEDICINE • VASCULAR SURGERY• PHLEBOLOGY • ANGIOLOGY • DERMATOLOGY • ESTHETIC MEDICINE AND SURGERY

VENDEP® PRO

40 STICKS

1.72 g

Ministry of Health code no. 160767

INDICATIONS

Recommended for the treatment of venous insufficiency of the lower limbs, hemorrhoidal plexus, and for the prevention of epistaxis.

BASED ON

Micronized diosmin, Micronized hesperidin, Vitamin C

USE

Adults: 1-2 sticks a day. Pour the content of the stick into a glass of water (150 ml), stir well and take the preparation immediately.

PROPERTIES

- **Diosmin 1000 mg, highly micronized:** very high dosage per single dose, certified particle size of 5 µm. Phlebotonic, capillarotropic and antioxidant effect.
- **Hesperidin 50 mg, highly micronized:** effective dose of hesperidin, certified particle size of 5 µm. Phlebotonic, capillarotropic and antioxidant effect.
- **Vitamin C at 125% of the reference nutritional value**: support for the tonic and antioxidant action of Diosmin and Hesperidin at the level of veins and microcirculation.
- **Suitable for diabetics**: practically zero glycemic load.
- **Excellent palatability**: blueberry flavour.
- Gluten free. Naturally lactose free.

THERAPEUTIC AREAS: VASCULAR MEDICINE • VASCULAR SURGERY• PHLEBOLOGY • PROCTOLOGY • ANGIOLOGY • DERMATOLOGY • ESTHETIC MEDICINE AND SURGERY
